THE FUTURE OF sctelcom

Fiber Internet Construction Agreement

This construction agreement is made as of the _____ day of _____ 202__. Between _____ hereinafter referred to as “Landlord”, as the owner of the rental property located at _____ and SC, an internet and landline provider.

By signing this Agreement landlord is granting permission to SC to install wiring and equipment up to and inside the property. The construction could include but is not limited to: excavation in the yard to get the wiring to the house, drilling a hole in the wall to get the wiring inside the house, installing a router and possible other equipment (ie; mesh unit) in a centralized location for the best service possible in the property. SC will leave the property in the best possible condition after construction has been completed.

The landlord is not liable for any costs associated with the construction.
